Action Plan

My Goals:

Short-term (0-2 years)

- Are there any quick wins? Can you make headway on your longer term goals?
- Are there any skills you could develop that you might need to have for your future goals?
- Could you undertake placements/secondments to gain the skills you need for your future goals?

Medium-term (2-5 years)

- Build your business network
- Establish your reputation as an expert in this field
- What would you like to be doing differently in 1-2 years time?

Long-term (>5 years)

- Stretch your goals
- Set goals in areas that might be more ambitious
- Align these with your long-term aims
- Future plans that might take a bit longer to implement
